

What do we do?

Inspections, Aerial Photography & Videography

- A Drone Survey enables property owners to carry out aerial surveys with high quality photography and videography both in real time
- 4K video and high resolution photography edited to the highest standard

Client Benefits

- Low cost surveying at a fraction of standard costs
- Allows one-off and regular tracking and monitoring of developments
- Provides a highly accurate reference point to highlight discrepancies and other deviations from the build plan
- Highly effective marketing tool

Drone + MEWPs = Safety

Working Together
